

Interactive Prototypes Designer

Autodesk China Research & Development Center, Shanghai

Hot technology! Cool place to Work!

We are looking for talented interaction designers to join a team of highly experienced and creative product designers at Autodesk. This is a unique opportunity for you to help visualize unique and innovative product concepts with a dynamic, fast-paced and global product design team.

The right candidate must possess a clear passion for new product concepts with design tools, as well as assist product interface designers to create multiple solutions as low/high fidelity prototypes.

Responsibilities

- Work with global product designers to visualize design concepts.
- Be able to create low and high fidelity interactive prototypes as requested.
- Produce comparative solutions to support design iterations.
- Manage multiple priorities, plan and track work to deliver product on time.

Requirements

- A bachelor degree or above in visual design, multimedia, or motions-graphic design.
- 1+ years experience as a Flash designer with strong motion-graphic, Action Script or Flex coding skills.
- Strong portfolio of previous flash related work is required.
- Strong skills in Flash, Illustrator, Photoshop, and other related 2D/3D design software.
- MS Expression Design and Expression Blend is a plus.
- Strong verbal and visual communication skills are strong assets.
- Able to work in a user-centered development environment, where all designs are iterated and improved based on team intelligence.
- Interact with and support others effectively via teamwork and diplomacy.
- Experience with Autodesk products, such as AutoCAD, Revit, 3DSMax, is a asset.
- Written fluency and basic oral communication in English.

A world leader in 2D and 3D design, engineering, and entertainment software, Autodesk is helping design professionals transform challenges into opportunities, design in better ways, and gain competitive advantage.

Autodesk software enables designers to fully experience their ideas virtually so they can design in better ways -- from being more efficient and productive to designing more sustainably and with greater innovation.

- 100 percent of the Fortune 100 use Autodesk products.
- Autodesk has 9 million users worldwide.
- 750,000 companies use our software.
- Our products are available in 20 languages.
- Over the past 14 years, all winners of the Academy Award® for Best Visual Effects in Film used Autodesk Solutions.

To empower our customers with technology that impacts the world, we start by empowering our employees to make a difference: we encourage Autodesk employees to demonstrate their expertise, communicate honestly, and be a bit of a genius. Autodesk employees are free to share opinions and know that they will be respectfully listened to.

Our vision for people at Autodesk is to unleash talent and potential to drive business success. With challenging work, global teams, hands-on training, and robust leadership programs, we make it easy for you to determine where you want to go and how to get there.
